With only 84,600 miles on the clock, this 2014 Toyota Hilux has plenty of life left. This Hilux is a D-4D Invincible variant with the Invincible trim and a 3.0L diesel engine. As a four-wheel drive van, the Hilux 3.0 D-4D Invincible Auto 4WD Euro 5 4dr derivative comes equipped with several features for comfort and convenience, including air conditioning with climate control and Bluetooth connectivity. The dusk sensor ensures the headlights automatically switch on when needed, and the rear-view camera display on the Toyota Touch system makes parking easier.

The Hilux has a payload weight of 1050 kg, which means it is capable of carrying substantial loads. The low mileage for its age suggests that it has been well-maintained and lightly used compared to similar vehicles. The low insurance group indicates that insuring this vehicle could be more affordable than other comparable models.
