£345

This 2017 Ford Ranger Wildtrak pickup presents a compelling proposition with its remarkably low mileage of just 66,000 miles for its age, a key indicator of its excellent provenance. This robust 3.2 TDCi Wildtrak Pickup Double Cab 4dr Diesel Auto 4WD is powered by a capable 3.2 litre diesel engine and features a four wheel drive drivetrain, making it well suited for a variety of tasks. It also boasts a substantial towing weight of 3500 kg. Inside, you will find a host of convenient features including automatic headlights, rear parking sensors, and heated front seats for added comfort. The dual zone electronic automatic temperature control ensures a pleasant cabin environment for all occupants, while the rear view camera aids in manoeuvring.

The Wildtrak trim level signifies a well equipped vehicle, and this Ranger is no exception. Its low insurance group rating is a notable highlight, suggesting that running costs could be more economical compared to similar vehicles. The combination of its powerful 3.2 TDCi engine, four wheel drive capability, and generous towing capacity, alongside its well maintained low mileage and desirable features, positions this Ford Ranger as a practical and appealing choice for those seeking a dependable and capable pickup truck.
